

ALLIANCE

HOME HEALTH · HOSPICE

Alliance is the solution to your healthcare questions!

Deciding to use a home health agency is hard enough, let alone how to apply those benefits. Alliance will help you maximize your Medicare, Medicaid, and private insurance benefits to achieve the best care possible. Call Alliance when you want to give only the best to those you love the most.

At Alliance we will help you create a unique care plan to meet your specific needs. Get started with a **FREE CONSULTATION** to learn what services (all provided by certified caregivers) that match your situation.

- Health Assessments**
- Diabetic Monitoring**
- Blood Sampling**
- I.V. and Line Insertion**
- Medication Regimen & Education**
- Catheter & Colostomy Care**
- Pain Management**
- Restorative Nursing**
- Wound Care w/ Education**
- Parenteral & Enteral Care**
- Cardiac Care**
- Dressing Changes**

From the time we are born, we all learn to love the warm feeling of security we get from home. Home truly is where the heart is. Living at home provides peace of mind and a sense of dignity for all of us.

Many times Home Health Services can be offered to you at no charge if you qualify for the benefit through Medicare, Medicaid or personal insurance.

WELCOME

Is Home Health for you?

Alliance Home Health focuses on rehabilitation using traditional medical management. Home health helps patients become independent at home, where they are comfortable, and where family can support. The familiar surroundings can make recovery easier and faster. Many health care needs can be met without leaving the living room. Patients requiring rehabilitation or with certain illnesses may be eligible to receive the help and services they need while remaining in familiar surroundings and the comfort of their own home.

Note our nursing services to the right and see all that they include...

- 1. Comprehensive Nursing Services:**
Using a professional care plan, developed & implemented by nurses.
- 2. Physical Therapy Services:**
Strengthening & conditioning exercises with mobility training.
- 3. Occupational Therapy:**
Use of special equipment training and muscle re-education.
- 4. Speech Therapy:**
Language, communication & swallowing training.
- 5. DME (Durable Medical Equipment):**
Specializing in oxygen & medical supplies.
- 6. Home Health Aide Services:**
Oral hygiene, catheter care, assistance with ambulation & meal preparation.
